5 ADVANTAGES&DISADVANTAGE

ADVANTAGES:

The number one benefit of using a PMS is saving time.

Property management systems make it easier for coordinating the functions of the front office, guest management, sales, planning, and reporting.

DISADVANTAGES:

Time-consuming if you choose the wrong system.

Might seem expensive for a small business.

6 APPLICATIONS

Property management software solutions enable support and maintenance requests to be handled, service providers and suppliers to be scheduled and tenants and property owners to communicate about scheduled maintenance tasks with great ease.

7 CONCLUSION

Property management application using sales force is one of the fast growing fields in now a days.

Here i am developing the App for the Property Management where Buyer can order his Requirements and get the Appropriate Details of the Property

8. FUTURESCOPE

Salesforce has many applications in the real estate industry. And all of it ensures – better communication with clients, improved customer relationships, and increased sales. So there is a lot of future scope in property management application especially using sales force.
